Today we are able to show you all the novelties in pants and fall suits. Call for the brown plaid or the nobby pincheek. They are here with others.

It's time to think, to talk, to calculate, to economize in matters of fall wearings. What has the past taught you? Is it that our stocks seem tumbled about 20 per cent. below the general level of the market? Is it not in reality true? What else is to be expected after carefully considering our advantages? We're going to keep right on tumbling for an indefinite period. Now is the time to select that nobby pair of pants when the stock is new and full. If you want a plaid we can show some "daisy" patterns, and the same with smaller checks and stripes. The biggest bargain that was ever placed on the market is our line of boys' knee pant suits at \$2, \$2.50 and \$2.75, especially the \$2.75 (it would be cheap at \$3.50). A nobby line of checks and plaids in all the new colors and shades. Prices accordingly.

Time and space will not allow us to speak of our youths' department. It is full and running over with all the new things of the season. Call for lot No. 7905.

Steadily remember us on hats and caps, traveling bags, shawl straps and satchel straps. Not everybody knows what differences we make in prices. We shall be more than ever prepared to supply your wants with fall goods of every description. A quarter saved is not bad. A third is better.

A REMARKABLE CASE.

JUDGE LIND IN KNOXVILLE, TENNESSEE.

A Salesman Murdered and the Perpetrator of the Crime Strung Up to a Bridge—He Escapes the Noose and Falls a Distance of Eighty Feet.

KNOXVILLE, Tenn., Sept. 5.—Tuesday morning last E. A. Main, travelling salesman for a firm in this city, was found dead near the city, with a bullet-hole in his head. Lee Sellers, a noted character, was arrested on suspicion. Last night about nine o'clock about 20 business and professional men, masked only with handkerchiefs, went to the jail and demanded admittance. They were refused. Three shots were fired and a mob of five hundred men gathered and rushed upon the jail, broke open the outer door, secured the keys, took Lee Sellers out to the middle of the county bridge. To the demand for a confession he answered: "I have nothing to say." They then swung him from the bridge. Several shots were fired into his body. Sellers was not handcuffed and after he had been swung off he reached up, seized the rope and climbed until he reached the frame work. Fifty shots were fired at him but none proved fatal. He shouted to his friends to come to him, that he was murdered. Runners were sent to the city for ladders to reach him. Meanwhile he slipped the noose off his neck. Ladders came and men started to him but he fell off to the edge of the water below, a distance of 80 feet. His body had not been found at last accounts.

SPAIN AND GERMANY.

The Germans Hoist Their Flag Over One of the Caroline Islands.

MADRID, Sept. 5.—A sensation was caused here this morning on the receipt of important news from the Caroline Islands. Spanish war ships reached Yap, one of the islands, on the 21st ult., and prepared to occupy it in the name of Spain. Spanish officers were dining in landing troops and on the 21st of the same month a German gunboat arrived. Although the German had been in the evening the German commander instantly landed a body of marines and sailors and hoisted the German flag over the island. The Spanish officials made an energetic protest against the action of the German commander and on the latter's refusal to recede from the position he had taken, telegraphed to Madrid for instructions. A conflict between the Germans and Spaniards at Yap is feared. On receipt of the above news the ministers were immediately summoned in a cabinet council, and King Alfonso was advised of the strained situation. His royal highness telegraphs that he will arrive at Madrid tomorrow.

INTERNATIONAL MEETING.
MADRID, Sept. 5.—The excitement over the German occupation of Yap is intense, and the populace is wild with rage. A large crowd gathered in front of the German embassy, attacked the building and tore down the coat of arms and dragged it through the streets to the Puerta del Sol, where they burned it in front of the office of the minister of the interior, and yelling "Down with Germany." After burning their spite the mob proceeded to the French embassy and cheered frantically. The crowd had by this time grown to considerable proportions, and fears are being entertained of a serious riot. Troops were ordered out to clear the streets, but the crowd slowly retreated before the military. The situation is very grave. The council of ministers has adopted a proposition to court martial the governor of Yap and the commanders of the two Spanish war ships, which arrived there on the 21st ult., for neglect of duty. The latter in not immediately garrisoning the island with Spanish troops on their arrival, and the former in not hoisting the Spanish flag and proclaiming the suzerainty of Spain over the island. The report that the German squadron had sailed for the Caroline Islands, taken possession of the islands has been a fact too well known to admit of discussion. German government officials still scout the idea of war over the dispute.

WHAT GERMANY THINKS ABOUT IT.
LONDON, Sept. 5.—The Standard's Berlin correspondent says: "Spain has finally and decidedly declined to submit the Caroline affair to arbitration. Spain argues that the occupation of Spanish territory by Germany is a fact too well known to admit of discussion. German government officials still scout the idea of war over the dispute."

MORE ABOUT THE YAP TROUBLES.
NEW YORK, Sept. 5.—A Madrid dispatch says: When the German flag was raised at Yap the Spanish gunboats cleared their decks for action and the Maritima was called out to open fire upon the German gunboat when she was signalled to depart, which she did most reluctantly. The third Spanish vessel, the Velasco, has arrived at Yap bay.

England as Bad as Germany.
BERLIN, Sept. 5.—The German press continually warns poor Germans from emigrating to England, where they state, similar distress to that prevailing throughout Germany exists.

Bicyclists Surpass Horsemen.
VIENNA, Sept. 5.—The employment of bicyclists as scouts for the intelligence department in military manoeuvres here, proved a great success. They surpassed horsemen in endurance.

A GEORGIA ROMANCE.

The Once Reigning Belle of Savannah Now Living as a Hermit.

NEWMAN, Ga., Sept. 5.—In a small town near Fayetteville lives a female hermit, Miss Sarah Landman. She is sixty years old, and for thirty-five years has occupied her present abode, refusing all association with people around her, and living in the rudest manner. She belongs to one of the richest families in southern Georgia, and thirty-five years ago was one of the belles who graced Savannah society. She was sought in marriage by a young gentleman of that city, and the arrangements for the wedding were elaborate. Her father was ordered from New York.

On the appointed night she was doomed to disappointment, for the groom came not. When the news was received next day that he had eloped with a lady who was visiting at his father's house it found the disappointed bride at the point of death. She recovered, however, and with a strong will which had characterized her life, she declared her purpose to live as a recluse. Thus she has lived ever since, stonily refusing aid or comfort. Only once did she leave her seclusion, and that was to attend her father's funeral, when she had a short conversation with her father, who was shot dead before Petersburg. In his coat pocket was found a picture of the girl whom he had so wronged.

THAT TOWNSHIP TRUSTEE SWINDLE.

A Whole County in Danger of Bankruptcy.

VINCENNES, Ind., Sept. 5.—Investigation of the alleged township trustee swindle in Davies county, Ind., reveals what appears to be most astounding official corruption. There are three trustees involved. It is said that the trustees would issue long-time warrants on their township, drawing 8 per cent. interest. These warrants are the same as a note made payable at bank. A trustee finds trouble in disposing of these warrants. Some time will elapse before the full extent of the losses will be known. If the warrants are legal, Davies county is ruined—if not, the scores of capitalists in Indianapolis, Chicago, St. Louis, Cincinnati, and throughout the middle states, it is claimed, are out of pocket. It is estimated that warrants on Washington township have been issued to the amount of \$75,000; on Steele township, \$50,000, and Harrison township, \$50,000.

THE FIGHT FOR TENNESSEE.

One of the Attorneys for the Stockholders Explains the Situation of Affairs.

PITTSBURGH, Sept. 5.—Argument was to have taken place yesterday before Judge Ackerson upon the motion to dissolve the injunction granted by the Crawford county courts restraining the voting trustees of the New York, Pennsylvania and Ohio road from voting the stock of the road in the interest of four London capitalists and sending the receipts of the company to the same London parties. D. T. Watson appeared for the trustees, but on application of W. R. Bole, of Mendeville, who represents certain of the stockholders, a continuance was allowed until September 18, when the matter will be argued before Judge Ackerson at Williamsport. In reply to several questions Mr. Bole said: "Our position is that the scheme of reorganization which created the various trustees is invalid, and there is no one who is entitled to the control of the road, which would require the appointment of a receiver to take charge of its affairs. The action of the United States court in dissolving the receivership and declaring that the United States court had jurisdiction does not prejudice our case in the matter of the injunction restraining the voting trustees, though the United States court should not have decided it had jurisdiction. A speedier settlement of the case should have been reached by the United States court deciding it had no jurisdiction, which would have permitted an appeal to the supreme court of the state. As it is though, it may be three or four years before the case is reached in the United States circuit court, and then it will be as long before the supreme court of the United States can reach it. Before that case is settled it is very probable that we will have a quo warranto proceeding disposed of in the state supreme court. Such a proceeding will be commenced in the Crawford county courts and will be decided before the voting trustees usurpers and restore the road to the stockholders. It is probable, too, that we will make a motion at Williamsport for the appointment of a receiver."

Gone Home to Help Senator Gorman in His Campaign.
[From Morning Edition.]

WASHINGTON, Sept. 4.—When the present administration took hold of affairs it was given out that there could be no more examples of government employees going home and interfering in politics. Every clerk was to attend strictly to his duties, and he was to become in effect a neutral in party contests. But now the new captain of the watch in the treasury, Mr. Cress, and the new deputy third auditor, Welch, both of whom are from Baltimore, and were put into the department by Higgins to please his master, Senator Gorman, have obtained leave of absence and gone home to work up the primary elections in the interest of the senator. He wants to be re-elected senator by the legislature the coming winter, and it will be necessary now to see that Gorman men are nominated as state senators and assemblymen. This matter of two prominent officials going home for the purpose of "fixing things" to capture the nominating convention by the legislature is the treasury department in view of the pretensions made in favor of reform by the present administration.

Pending 10 Years on a Technicality.

WASHINGTON, Sept. 4.—A case was discovered in the pension office a few days since, where a claimant had proved one point in his case five times, and the matter had been pending for twenty years on a mere technicality. The commissioner issued an order doing away in part with inconsequential technicalities. Under the rule a poor claimant will have to prove his case but once, nor will his claim be rejected on a mere technicality.

Freight Rates Break at St. Louis.

St. Louis, Sept. 4.—Freight rates on grain from here to the seaboard are 14 cents to New York, 12 to Philadelphia and 11 to Baltimore. A break in the higher class freights is expected.

TROOPS ORDERED OUT.

TWO COMPANIES OF SOLDIERS TO PROCEED TO ROCK SPRINGS.

The Protection of the Mails the Ostensible Reason for the Sending of Federal Troops to the Scene of the Disturbance—No Future Trouble Anticipated.

WASHINGTON, Sept. 4.—Governor Warren, of Wyoming Territory, today telegraphed to the president and secretary of war, at Washington, requesting the assistance of the Federal troops in suppressing the disturbances at Rock Springs, Wyoming Territory, caused by the massacre of Chinese laborers by white miners. A copy of the telegram was forwarded to Secretary Endicott at his home in Massachusetts. Adjutant General Drum had a conference with Secretary Bayard as to the best course to pursue in the matter. It was decided, in view of the informality of the call for troops, not to disturb the president with the question, but to instead issue orders for United States troops to proceed to the scene of the disturbance, for the purpose of protecting the United States mails. The soldiers are to keep open the route over which the mails are carried, and prevent any interference with them. Adjutant General Drum, therefore, telegraphed Gen. Schofield, at Chicago, to order two companies to proceed immediately to the scene of the disturbance for the purpose indicated. It is expected that the presence of the troops will lead to the prevention of further trouble.

Under the law, the president can only recognize appeals for Federal assistance when made by the governor and legislature of a state or territory. In the present case Governor Warren alone made the appeal, but neglected to give the desired information about the legislature.

The Government Will Not Try to Establish Riel's Citizenship.

QUEBEC, Sept. 4.—Major Mallet, an influential French Canadian now in the United States, sends a communication to Riel's sympathizers here, in which he gives the substance of an interview with Secretary Bayard respecting Riel's case, as follows:

The American government will not take the initiative in the researches to be made to establish Riel's title to American citizenship, or his rights in that quality. Up to the present, the American government has not given any attention to the question, beyond inquiring from the war department as to the truth of the statement that Riel was made a prisoner on American soil, this inquiry having been made on the demand of the citizens of the city of New York, who asked for information on the subject.

A Mexican Murderer's Desperate Attempt at Suicide.

CORPUS CHRISTI, Texas, Sept. 4.—At the rancho of Mateo Sampedo, in Duval county, yesterday, a Mexican named Eusebio Diaz shot and killed his wife, and then shot himself three times, falling to the ground. A physician was summoned, and sewed up the wound in the throat. When the man revived sufficiently he was taken to jail. The murderer's wife was a daughter of Sampedo and his fourteen-year-old son. They had only been recently married. Diaz was jealous of his child-wife.

Puffering Boys Shot by a Farmer at Dayton.

DAYTON, Sept. 4.—Three boys, each aged about ten years, were shot today by Wm. Kimball, a farmer, while helping themselves to musk melons in Kimball's field. Kimball lay hid in the corn, and fired at the boys. Thirty No. 6 shot penetrated half an inch in one boy's back, and ten struck another boy's head, felling him on his skull. The people here are excited over the affair.

HEADQUARTERS REP. STATE COM. ST. CLOUD HOTEL, PHILADELPHIA, Pa., Sept. 3.
DEAR SIR:—We desire an early subscription to the state committee and as a general agent for the purpose of securing a decisive victory this year, it will prevent any station of, or disastrous change in the tariff, by the incoming congress, and pave the way for the overthrow of the democratic state and the work of the state committee with the utmost vigor and efficiency. Please send your subscription as early as possible, by mail or money order, or call at headquarters. Yours truly,
THOS. V. POWDERLY, Chairman.

A number of similar communications were received by employees of the land office. Acting Secretary Jenks has transmitted the circulars to the civil service commission for such action as they may deem proper.

Death of the Rev. Dr. Stephen H. Tyng.
New York, Sept. 4.—Rev. Dr. Stephen H. Tyng, who died at Irvington, N. Y., last night, was for many years pastor of St. George's church in this city. Some years ago he was retired and made a pension of \$5,000 a year. One of his sons lives in Illinois. The others are Rev. Stephen Tyng, Jr., now in Paris; Morris A. Tyng and Mitchell Tyng, lawyers in this city, and Charles Tyng, merchant of this city.

John Kelly will be on Deck This Fall.
New York, Sept. 4.—Hugh J. Grant presided at a meeting of the Tammany Hall committee on organization tonight. General Spaulding reported that John Kelly is in health, and as sure to be at the political helm this campaign.

He's a Sick One.

A young fellow dressed in a shiny Prince Albert, on which a fly would break its neck attempting to scale the collar, celluloid shirt collar and cuffs and flannel shirt, is going about the city, victimizing owners of sewing machines. He represents himself as being in the employ of the sewing machine company, and as all the machines are sold under a contract for repairs during a certain period, he says he is there for the purpose of making any necessary repairs. In this way he gets permission to examine the machine, and he very soon finds something very serious is the matter. Something is wrong with the machine, he says, and he is not a certain machine, but he has not promised to repair, hence he charges so much for such repairs, which is about three times over what the repairs would cost if made by any regular agent. But in nine cases out of ten he gets the job, and there is with the fraud comes in the overcharges.

The way he finds out the names of the owners and of the machine is easily explained. When taking his leave at one house he pretends to have a sudden inspiration, and inquires if Mrs. So and So, living next door, has not a certain machine.

The unsuspecting person generally tells him the name of the next door neighbor and of the machine used, with this information the sick gentleman is very well prepared to call on the neighbor. It does not matter what make of machine it is, as he is very apt to find something wrong with it to the extent of at least \$1.00 profit.

This gentleman has been doing Springfield during the last week and people who own sewing machines are warned against him, because he is a fraud, and any machine he calls on to be repaired, will be made by the company without cost when the regularly authorized agent is called upon.

The Texas Colonization Society.

[From Morning Edition.]
The Texas Colonization Society held a meeting at Allen's Hall last night. About seventy-five of the promoters of the scheme were present. No business of importance was transacted, except to appoint a committee of one C. F. King, to go to Xenia and endeavor to work up interest in the project. A committee was also appointed to endeavor to interest capitalists in the enterprise. Action was taken to increase the colony from one hundred to two hundred members.

A committee, consisting of the president, Andrew Burnett, A. G. Bethard, A. J. Erick, E. W. Olds and William Reese, visited Texas this summer to seek a location for the colony. They, or at least Burnett and Bethard, traveled all through the northern and western portions of the state, and finally decided upon a body of land containing 17,000 acres, in Montague county, as the best large tract they could find. The land is represented as good agricultural soil, lying between the county seat and Red River. It is owned by Jordan B. Bradis, who is easily persuaded, and is offered to the society at 10 per acre. The society has resolved to purchase the land and start a town upon it. About half of the colonists expect to start this fall and the residue will follow next spring.

Rosh Hashanah.
The Jewish New Year holidays, Rosh Hashanah, will occur September 10 and 11. This will begin the 5646th year of the world, according to the Jewish acceptance. The Israelite residents of this city are making preparations to observe the holidays, which will begin with New Year's eve, September 9th, in an appropriate manner. All business will be suspended from Tuesday evening at 6 o'clock until Thursday evening at 6 o'clock, and the Sabbath, September 10th, will be observed as usual.

On the 10th will occur the fast-day Kippoor, which will be observed with services and fasting all day from 6 a. m. to 6 p. m. This is the anniversary of the crossing of the Red sea by the children of Israel.

Mikado in Fine Style.

The costumes for the "Mikado" were imported for the Thompson Opera Company by the New Japan store of Chicago, expressly for this production from Japan. They are correct in every detail and marvel of design. All the costumes are made from the very finest Japanese silk and the figures on some of the dresses are hand-painted. On others the figures are first embroidered and then strewed on the silk. The combination of colors is excellent. Mr. Thompson deserves great credit for the liberal manner in which he has placed the opera on the stage. This grand company, with fifty people, will be at the Grand next Monday evening. Sale of seats now open at Carter's.

NO CONCLUSION REACHED.

THE WABASH LABOR TROUBLES STILL UNSETTLED.

The Committee of the Knights of Labor Submit Their Ultimatum to the General Manager of the Wabash Road, Who Claims to be Unable to Comply With It.

St. Louis, Sept. 4.—Messrs. T. V. Powderly and Frederick Turner, of the general executive board of the Knights of Labor, today submitted to General Manager Talmage their ultimatum in the matter of the Wabash trouble, as follows:

First, that a general order be issued along the Wabash lines instructing master mechanics and foremen that no discrimination must be made in employing men, on account of their being members of the Knights of Labor.

Second, that all employees who have, in any manner, taken an active part since the 15th of June in this trouble, be restored to the positions held prior to that time, at once.

Third, that all other employees who were locked out on June 16th be reinstated on or before October 1st, 1885.

Fourth, that all who have come out since then in support of those on lockout on that date be also reinstated on or before October 1st, 1885.

Mr. Talmage stated that the Wabash was in the hands of a receiver, and that the court was now asking the management to cut down expenses, and consequently he could not put the men to work, as he had neither work nor money. He could say nothing now as to reinstatement October 1st, as he did not know what demands for labor there would be nor the financial condition of the road on that date. Messrs. Powderly and Turner retired and conferred with the Wabash district committee several hours.

Further consideration of the situation was had this evening. In conversation with Secretary Turner, tonight, that gentleman stated that no definite conclusion had been reached by the committee, that no line of action had been decided upon, and that he really had nothing new to give to the public.

ED. STOKES AND JAY GOULD.

The slayer of Jim Fisk Denies That He is Guilty of the Murder of the Money King.

[From Morning Edition.]
New York, Sept. 4.—The rumor that Jay Gould is mysteriously absent from Wall street, pre-eminently on his yacht, to escape being killed by Ed. Stokes, creates general comment among bulls and bears. The ground for the proposed shooting seems to be that Western Union people cut the wires of Stokes' telephone concern. When told the nature of the report, Mr. Stokes merely smiled and said: "It's trash and absurd." Stokes replied, "I didn't know Mr. Gould was away on his yacht. I have no ill-will against him on account of the cutting of the wires of the Bankers & Merchants Company." Mr. Stokes was apparently unable to explain what foundation the report had, but he acted strangely. When Mr. Stokes was released from his imprisonment for killing James Fisk he was approached by Jay Gould, who offered to settle a suit which Stokes had against him. Stokes being willing to compromise accepted \$40,000 in cash, and it is said that since then Stokes and Gould have been friends.

A Ten-Year-Old Boy Arrested for Murder.

NEW ORLEANS, Sept. 4.—A special to the Times-Democrat from Farmersville says: Sam Darling, colored, aged 10 years, was lodged in jail to-day charged with murdering Isaac Thompson, colored, aged 6.
